

# Rethinking ownership towards Steward-Ownership

Rethinking ownership is central to creating a society and economy that works for people and planet.

PURPOSE is an initiative creating the ecosystem of knowledge, network, and investment needed to make steward-ownership accessible. It supports a global community of businesses and entrepreneurs on their path towards steward-ownership. Through research, open-source resource development, hands-on support, and investment.

So far, PURPOSE transformed 100 companies towards steward-ownership and activated €250m growth and transition capital.

(in English, Q&A German as well)

**Speaker: A. Hensen, Co-Founder Purpose**

**Fr 28. Mai 2021 17:00 ONLINE**

**FREE ADMISSION / EINTRITT FREI— Register [here](#)**
